

How to get your Facebook App ID and Secret

First of all login to your FB account and go to the [Manage Apps](#) page:

Click “Add a New App” option:

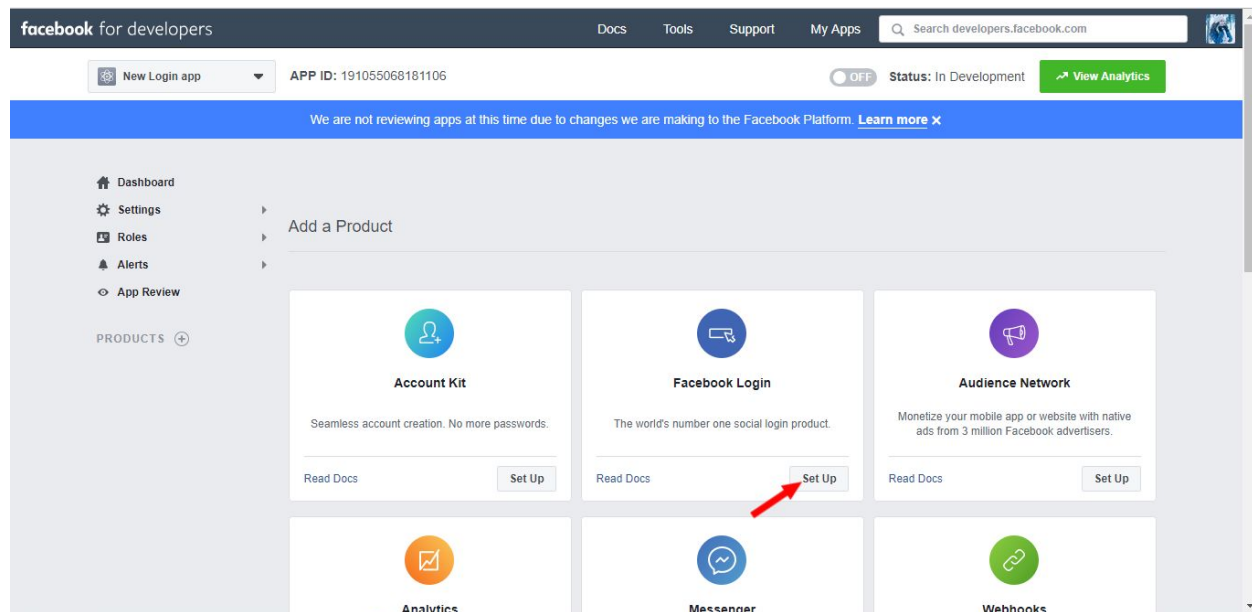

You'll see the app creation form in the popup:

The screenshot shows the Facebook for developers interface with a 'Create a New App ID' popup. The popup has a title 'Create a New App ID' and a subtitle 'Get started integrating Facebook into your app or website'. It contains two input fields: 'Display Name' with the placeholder text 'The name you want to associate with this App ID' and 'Contact Email' with the placeholder text 'Used for important communication about your app'. Below the fields is a checkbox area with the text 'By proceeding, you agree to the Facebook Platform Policies'. At the bottom right of the popup are two buttons: 'Cancel' and 'Create App ID'.

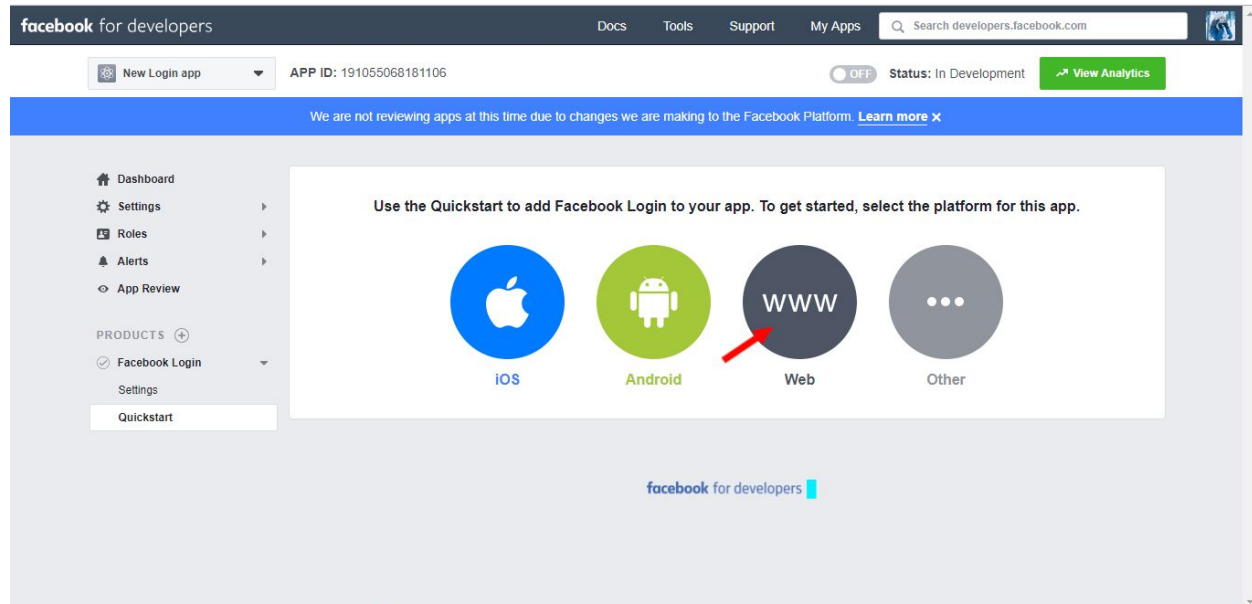

Fill the form and click “Create App ID” button:

This screenshot shows the same 'Create a New App ID' popup, but with the form fields filled out. The 'Display Name' field contains the text 'New Login app' and the 'Contact Email' field contains 'support@nexusmedia-ua.com'. A red arrow points to the 'Create App ID' button at the bottom right of the popup. The background shows a list of existing apps with details like App ID and status.

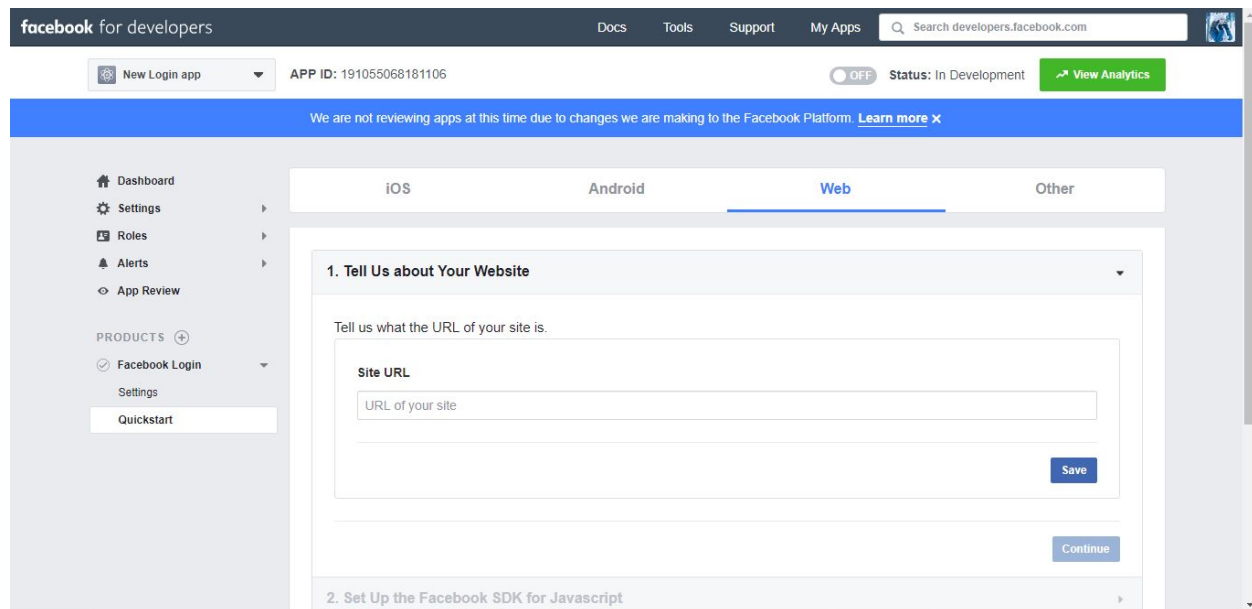

You may be requested to enter the verification code in the popup. Fill the appropriate field and proceed with the app creation. Once done the page with the variety of options will be shown for you. Select the “Facebook Login” one:

On the next page proceed with the “Web” item:

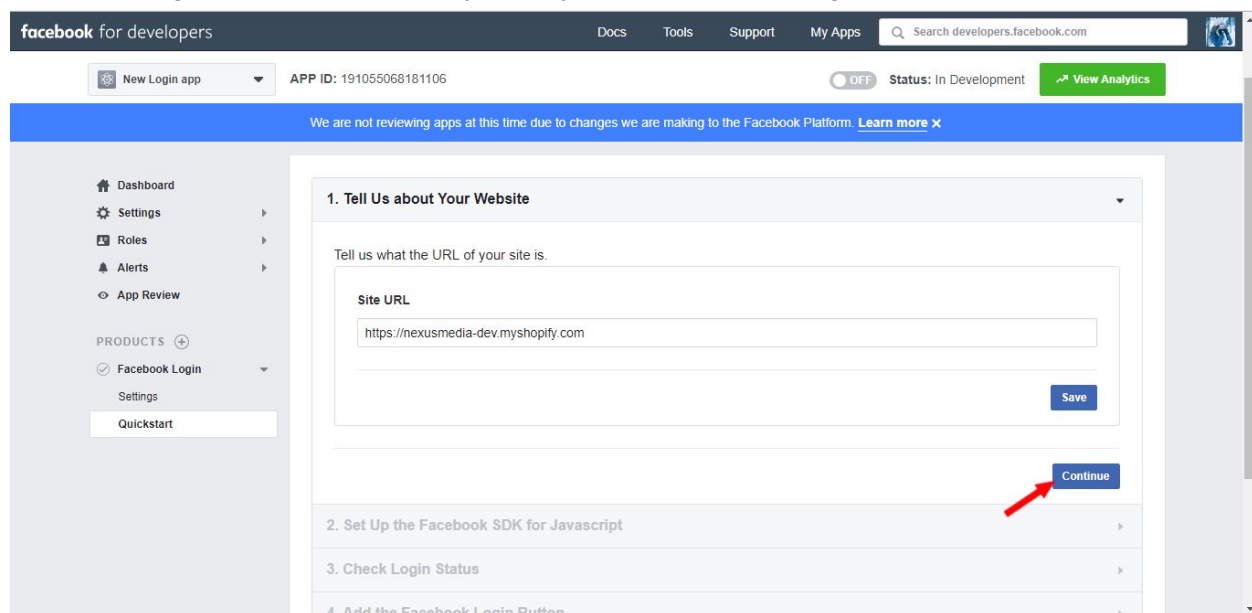

You'll see the following page with the form which you need to fill:

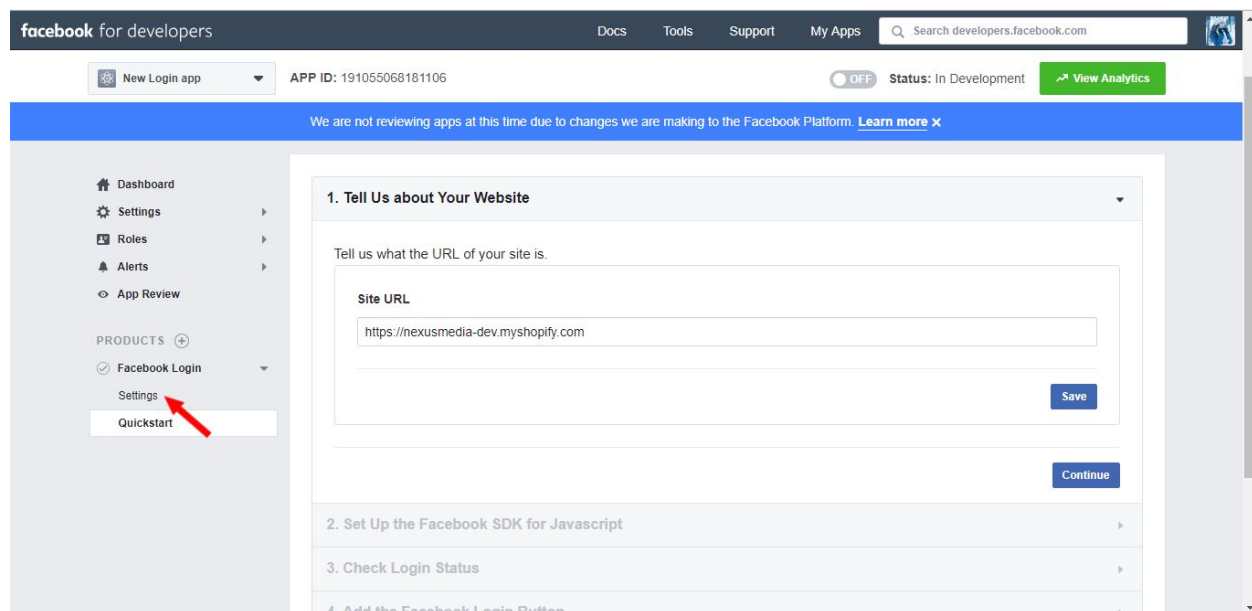

The screenshot shows the Facebook for Developers dashboard for a new login app. The top navigation bar includes 'facebook for developers', 'Docs', 'Tools', 'Support', 'My Apps', and a search bar. Below this, a status bar shows 'APP ID: 191055068181106', a toggle for 'OFF', 'Status: In Development', and a 'View Analytics' button. A blue banner message states: 'We are not reviewing apps at this time due to changes we are making to the Facebook Platform. [Learn more](#) x'. The left sidebar contains a menu with 'Dashboard', 'Settings', 'Roles', 'Alerts', 'App Review', and 'PRODUCTS' (which includes 'Facebook Login', 'Settings', and 'Quickstart'). The main content area has tabs for 'iOS', 'Android', 'Web' (selected), and 'Other'. Under the 'Web' tab, the first step is '1. Tell Us about Your Website'. It prompts the user to 'Tell us what the URL of your site is.' and features a 'Site URL' input field with the placeholder text 'URL of your site'. A 'Save' button is located to the right of the input field, and a 'Continue' button is at the bottom right of the step. Below this step, the next step '2. Set Up the Facebook SDK for Javascript' is partially visible.

Enter your site URL and save it. Once done the “Continue” button will become available. Use it. The app will generate the code but you may skip all the following steps here:

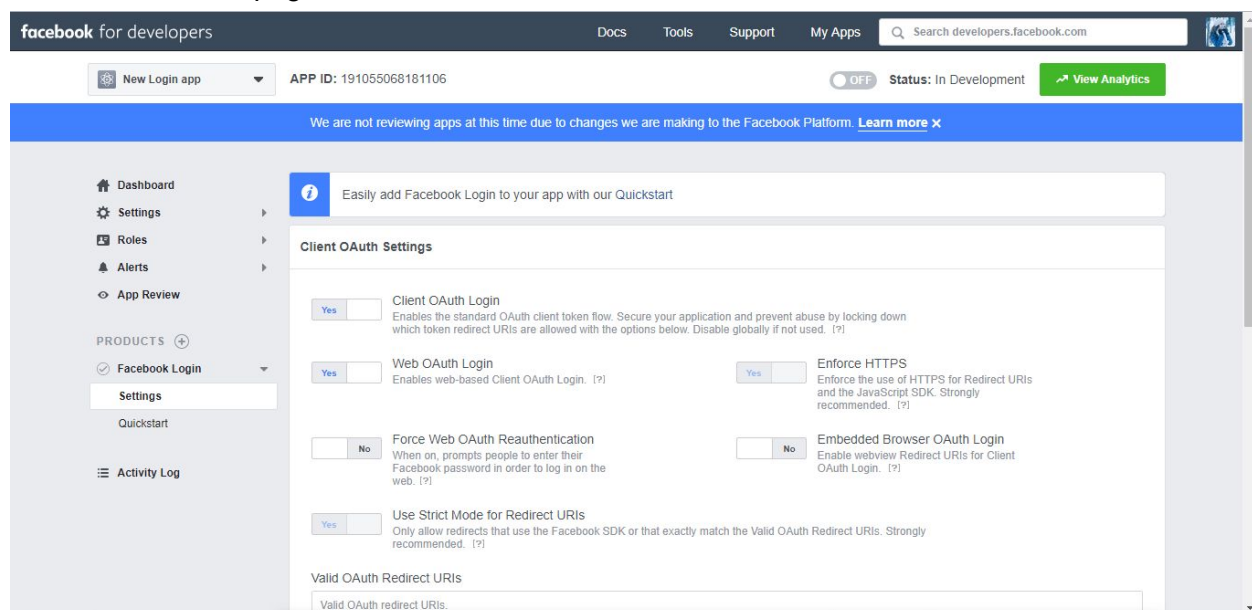

This screenshot shows the same Facebook for Developers dashboard as the previous one, but with the 'Site URL' input field filled with the text 'https://nexusmedia-dev.myshopify.com'. The 'Save' button is now active. A red arrow points to the 'Continue' button, which is also now active. The subsequent steps in the process are visible: '2. Set Up the Facebook SDK for Javascript', '3. Check Login Status', and '4. Add the Facebook Login Button'.

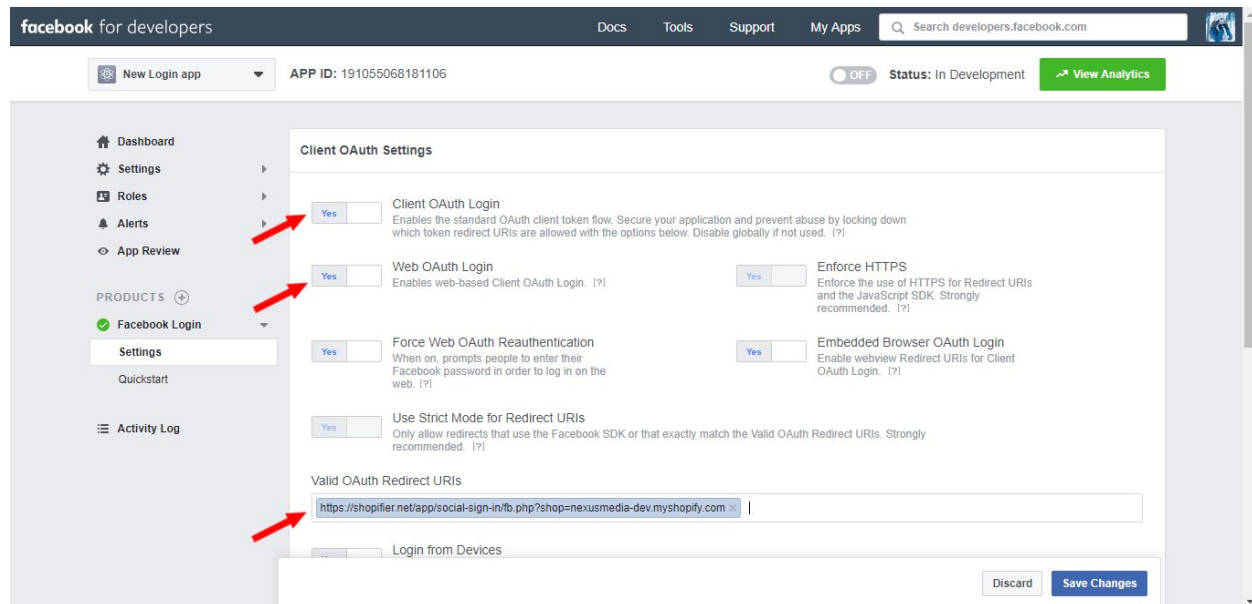

Go to the Settings in the Facebook Login section in the left sidebar menu:

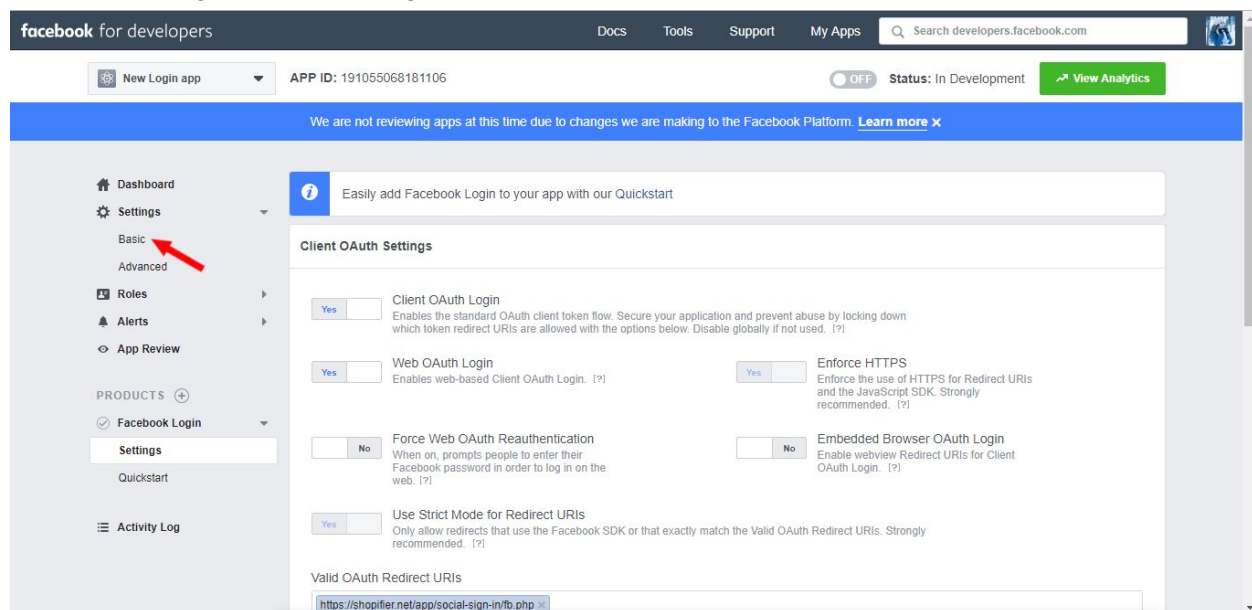

You'll see the next page:

Copy the advised URL from the app settings (go to your Store admin -> Apps -> EasyAuth -> API Keys -> copy the Valid OAuth redirect URLs in the Facebook section) and add it to the “Valid OAuth Redirect URIs” field in the Facebook app settings and check that “Client OAuth Login” and “Web OAuth Login” options should be turned on:

Save the changes. Click Settings -> Basic in the left sidebar:

Here you'll see the form which should be filled:

facebook for developers Docs Tools Support My Apps Search developers.facebook.com

New Login app APP ID: 191055068181106 OFF Status: In Development View Analytics

Dashboard Settings Basic Advanced Roles Alerts App Review PRODUCTS Facebook Login Activity Log

App ID: 191055068181106 App Secret: Show

Display Name: New Login app Namespace:

App Domains: Contact Email: support@nexusmedia-ua.com

Privacy Policy URL: Privacy policy for Login dialog and App Details Terms of Service URL: Terms of Service for Login dialog and App Details

App Icon (1024 x 1024): 1024 x 1024 Category: Choose a Category Find out more information about app categories here

Business Use: This app uses Facebook tools or data to

You can add any information for your app as well. And don't forget to save your changes.

Once done enable the app using the tumbler in the top of the page:

facebook for developers Docs Tools Support My Apps Search developers.facebook.com

Discard Save Changes

The app status will be changed from “In development” to “Live”:

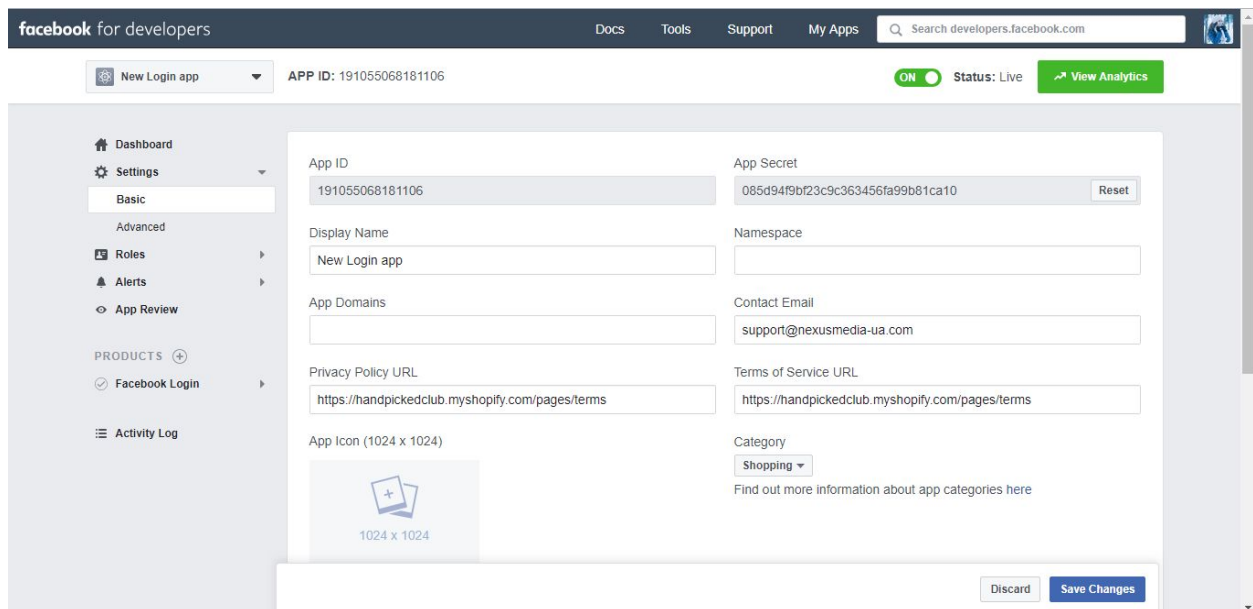

Now you may use it in your Shopify Store. So now you should copy App ID and App Secret. On the Settings page click Show button to see the App Secret:

The screenshot shows the Facebook Developer App Settings page for an app named 'New Login app'. The App ID is 191055068181106. The App Secret is masked with dots. A red arrow points to the 'Show' button next to the App Secret field. The page includes a sidebar with navigation options like Dashboard, Settings, Roles, Alerts, App Review, and Activity Log. The main content area displays various app settings such as Display Name, App Domains, Privacy Policy URL, Terms of Service URL, App Icon, and Category.

| Field | Value |
|------------------------|--|
| App ID | 191055068181106 |
| App Secret | |
| Display Name | New Login app |
| Namespace | |
| App Domains | |
| Contact Email | support@nexusmedia-ua.com |
| Privacy Policy URL | https://handpickedclub.myshopify.com/pages/terms |
| Terms of Service URL | https://handpickedclub.myshopify.com/pages/terms |
| App Icon (1024 x 1024) | |
| Category | Shopping |

You'll be requested to enter your FB password to confirm this action. Once done all the information you need will be shown to you:

The screenshot shows the Facebook Developer App Settings page after the App Secret has been revealed. The App Secret is now visible as 085d94f9bf23c9c363456fa99b81ca10. The 'Show' button has been replaced by a 'Reset' button. The page layout is identical to the previous screenshot, but with the App Secret field updated. At the bottom right, there are 'Discard' and 'Save Changes' buttons.

| Field | Value |
|------------------------|--|
| App ID | 191055068181106 |
| App Secret | 085d94f9bf23c9c363456fa99b81ca10 |
| Display Name | New Login app |
| Namespace | |
| App Domains | |
| Contact Email | support@nexusmedia-ua.com |
| Privacy Policy URL | https://handpickedclub.myshopify.com/pages/terms |
| Terms of Service URL | https://handpickedclub.myshopify.com/pages/terms |
| App Icon (1024 x 1024) | |
| Category | Shopping |

Then copy the App ID and App Secret to the EasyAuth API fields (Apps -> EasyAuth -> API Keys -> add the values to the fields in the Facebook section):

The screenshot shows the Shopify admin interface for the 'EasyAuth - Social Login' settings. The left sidebar contains navigation links for Home, Orders, Products, Customers, Analytics, Discounts, Apps, and Settings. The main content area is titled 'EasyAuth - Social Login / Settings' and includes tabs for FAQ, API Keys, Layout, Customers, and a Save button. The 'API keys and Secrets' section is active, displaying a light blue header with the text 'API keys and Secrets' and a note: 'Please leave empty if you're not sure what it is for.' Below this, the 'Facebook' section is expanded, showing fields for 'App ID', 'App Secret', and 'Valid OAuth redirect URLs'. The 'App ID' and 'App Secret' fields are currently empty, and red arrows point to them. The 'Valid OAuth redirect URLs' field contains the URL 'https://shopifier.net/app/social-sign-in/fb.php?shop=nexusmedia-dev.myshopify.com'. The 'Google+' section is also visible, with a field for 'API key (Server Key)'.

Save the changes:

This screenshot shows the same Shopify admin interface as the previous one, but with the 'App ID' and 'App Secret' fields populated. The 'App ID' field now contains the value '191055068181106' and the 'App Secret' field contains '085d94f9bf23c9c363456fa99b81ca10'. The 'Valid OAuth redirect URLs' field remains the same. A red arrow points to the 'Save' button in the top right corner, indicating that the changes have been saved.

Actually, that's. Hope it was helpful. If you have any difficulties please feel free to [contact us](#).
